The HUB According to Shaun

I really thought that you guys [Leadstone] did a great job on the article and the look of it was excellent! Vern [Hult - Majority Owner] also liked the layout of the article and thought that we were able to get our message out there with it. We have gotten positive feedback from the link that we just issued on LinkedIn and some others through the HUB that we already know. Now we await new traffic because of the article and hopefully get some soon.
